Work Experience

Adamas Tech Consulting / Product Designer 2

JUL 2022 – PRESENT, BENGALURU

Designing across multiple B2B SaaS products end to end — research, user flows, UI, and engineer-ready prototypes — in close partnership with PMs and developers.

KEY PROJECTS

Senco Gold & Diamonds • Virtual Try-On JEWELLERY E-COMMERCE

Redesigned the try-on so shoppers build a full jewellery look and add it to cart in one tap; led UX audit, design, and PRD.

RICE Smart • B2C EdTech 1L+ ACTIVE USERS

Lifted sign-up completion by 4% by removing onboarding friction; designed a private doubt-solving chatbot for students.

Arivoo • B2B education product suite SMS • LMS • AI

SMS (5 clients): Teacher and parent apps plus a multi-role transport module with live bus tracking.

LMS: Mentorship and online-project modules, on-the-go quiz creation for teachers, and the student app.

Agentic AI Suite: Four AI agents for content authoring, tutoring, quizzes, and career counselling, with human review.

NABC • N. American Bengali Conference 4.5★ • IOS + ANDROID

End-to-end event app for schedules, sessions, and venues; shipped with a 4.5★ rating and ~12-min sessions.

IISc • internal campus app 5 PLATFORMS → 1 APP

Unified five platforms into one multi-role app for students, faculty, and admin — fees, service requests, and more.

upGrad Campus / UX Designer (Graduation Project)

JAN 2022 – APR 2022, BENGALURU

KEY PROJECT

ODIN • internal sales tool

Internal tool for the sales team to track applications and issue offer letters mid-call; owned the UX end to end.

Education

NIFT / B.Design

MAR 2018 – MAR 2022, PATNA • CGPA 8.4/10

Coursework in usability engineering, tangible & interaction design, physical computing, design methodology, ergonomics, and systems approach to design.

Skills

Design: Design thinking • User flows • Information architecture • Wireframing • Sketching • Storyboarding • Motion design (After Effects) • Micro-interactions

Prototyping: Rapid prototyping with Keynote & InVision • High-fidelity prototyping with Principle & Flinto

AI & Vibe Coding: Vibe-coding functional prototypes and internal tools • Prompt-driven UI generation • Design-to-code and code-to-Figma workflows • AI chatbot design with knowledge grounding

AI Tools: Claude • Claude Design • Figma Make • Figma MCP • HTML to Figma • Copilot Studio • Supabase

Research: Usability testing • Heuristic evaluation • A/B testing • Intercept studies • Task analysis • Secondary & competitive analysis

Software: Figma • Framer • Sketch • Photoshop • Illustrator • After Effects • Premiere Pro • Unity • Blender
